25X1C   F-3 1. On ▋▋ 1951, the Panzer Kaserne, also called Albert Kaserne, in Kamenz (N 52/A 41), was occupied by only a rear unit of about company strength. About 50 to 60 soldiers were seen entering the mess hall. All barracks gates were closed, and only one sentry wearing red-bordered black epaulets with tank insignia was observed. Germans living near the installation stated that the troops had gone to Koenigsbrueck about the beginning of May.

25X1C   C-3 2. On ▋▋ from 600 to 700 recruits, organized into units of about 200 men each, assembled in the yard of the Infanterie Kaserne. Six heavy tanks, covered with tarpaulins, had been parked in the barracks yard for the past two weeks. According to a German resident, these tanks had arrived in the installation from the direction of the freight yard at the beginning of May. *
